ARKIV FÖR KEMI

UTGIVET AV

KUNGL. SVENSKA VETENSKAPS-

AKADEMIEN

QD
1
S923

Band 22

Med 42 avhandlingar

ALMQVIST & WIKSELL

STOCKHOLM

GÖTEBORG · UPPSALA

1964

Häfte 1 innehållande Nr 1– 6 utkom den 13 mars 1964
» 2 » Nr 7–16 » » 25 maj 1964
» 3–4 » Nr 17–28 » » 18 juni 1964
» 5 » Nr 29–33 » » 28 sept. 1964
» 6 » Nr 34–42 » » 8 dec. 1964

TJUGOANDRA BANDETS INNEHÅLL

Sid.

1. Henschen, A., S-Sulfo-derivatives of fibrinogen and fibrin: preparations and general properties 1–28
2. Stomberg, R., The crystal and molecular structure of oxodiperoxopyridine-chromium(VI), $[CrO(O_2)_2py]$ 29–47
3. Stomberg, R., The crystal and molecular structure of diperoxotriammine-chromium(IV) $[Cr(O_2)_2(NH_3)_3]$ 49–64
4. Gronowitz, S., Norrman, B., Gestblom, B., Mathiasson, B., and Hoffman, R. A., Proton magnetic resonance of pyrimidines. II. Chemical shifts, substituent effects and tautomeric structure 65–82
5. Brändén, C.-I., The crystal structure of $2HgCl_2 \cdot (C_2H_5)_2S$ 83–91
6. Lindstedt, S., and Lindstedt, G., Synthesis of DL-4-amino-3-hydroxy-butyric acid-[carboxy-C^{14}], DL-carnitine-[carboxy-C^{14}] and (—)-carnitine-[methyl-C^{14}] 93–96
7. Bullock, G., Atomic interactions in Cd–Mg–In alloys 97–112
8. v. Euler, H., Hasselquist, H. und Sternley, I., Elektrophoretische Ergebnisse über den Protein- und Enzymgehalt von Blut und Seren verschiedener Tiere 113–117
9. Gronowitz, S. and Karlsson, L., Optically active bithienyls. VI. On the synthesis and attempted resolution of 5-carboxy-3,3′-diiodo-2,2′-bithienyl 119–122
10. Norin, T., The absolute configurations of chamic, chaminic, and iso-chamic acids 123–128
11. Norin, T., Chanootin, a bicyclic C_{15}-tropolone from the heartwood of *Chamaecyparis nootkatensis* (Lamb.) Spach. 129–135
12. Bergqvist, M. S. and Norin, T., Steric relationships in the thujane group 137–149
13. Dinh-Nguyên, N., Organic syntheses with heavy isotopes. Part I. Some deuterium-substituted normal long-chain saturated hydrocarbons, acids, and esters 151–167
14. Aleby, S., Bogren, H. and Innes, J., A cylindrical X-ray micro diffraction camera 169–173
15. Olered, R., Studies on the development of α-amylase activity in ripening wheat 175–183
16. Brattsand, R. and Lindahl, P. E., An unknown volatile acid derived from fatty acids in seminal plasma particles 185–188
17. Brown,W., Henley, D. and Öhman, J., Sodium carboxymethyl cellulose, an experimental study of the influence of molecular weight and ionic strength on polyelectrolyte configuration 189–206
18. Almin, K. E., On the fractionation of polymers by membrane-diffusion 207–210
19. Hörnfeldt, A.-B., Unsaturated γ-thiolactones. IV. Preparations, tautomeric structures and tautomeric equilibria of some 5-substituted thiolene-2-ones 211–235
20. Olsson, K. and Axén, C., On octa-(arylsilsesquioxanes), $(ArSi)_8O_{12}$. II. Octa- and dodeca-(2-thienylsilsesquioxane), and their perbromo derivatives 237–244
21. Claesson, S., Lindqvist, L. and Strong, R. L., A fast 50 kV, 8 kJ flash photolysis apparatus 245–251

22. Biedermann, G. and Ciavatta, L., Studies on the hydrolysis of metal ions. Part 50. The hydrolysis of the yttrium(III) ion, Y^{3+} 253–279
23. Holmström, B., Spectral studies of the photobleaching of riboflavin phosphate 281–301
24. Biedermann, G. and Newman, L., Studies on the hydrolysis of metal ions. Part 51. The hydrolysis of the cerium(III) ions, Ce^{3+} 303–316
25. Reio, L., Observations on the excretion of aromatic metabolites in schizophrenic and normal subjects 317–327
26. Holmström, B., The mechanism of the photoreduction of riboflavin . . 329–346
27. Henschen, A. and Blombäck, B., Amino acid composition of human and bovine fibrinogen and fibrin 347–354
28. Henschen, A., Number and reactivity of disulfide bonds in fibrinogen and fibrin 355–373
29. Henschen, A., Peptide chains in S-sulfo-fibrinogen and S-sulfo-fibrin: isolation methods and general properties 375–396
30. Henschen, A., Paper electrophoretic patterns and mobilities of unmodified, sulfitolysed and reduced-alkylated fibrinogen and fibrin in buffered 6 *M* urea 397–415
31. Odham, G., Studies on feather waxes of birds. II. On the chemical composition of the wax in the free flowing secretion from the preen gland of Peiping ducks (*Anas platyrhynchos* L.) 417–445
32. Sjöberg, B. and Sjöberg, S., Dehydroabietylamine as resolving base . . 447–450
33. Moses, P., Dahlbom, R. and Sjöberg, B., Hydrogenation studies of α-oximino and α-phenylhydrazono phenylacetamides 451–467
34. Andersson, M., Absolute configurations of optically active *o*-, *m*- and *p*-nitro-phenoxypropionic acids 469–473
35. Bergson, G. and Biezais, A., New syntheses of 1,1-bis-(hydroxymethyl)-cyclohexane and related dithiolane and diselenolane derivatives 475–478
36. v. Euler, H., Hasselquist, H. und Sternley, I., Elektrophoretisch angestellte Vergleiche von Enzym- und Globulinwirkungen in Seren und Hämolysaten verschiedener Tiere 479–483
37. Brändén, C.-I., The crystal structure of $[HgCl_2 \cdot (C_6H_5)_3AsO]_2$ 485–493
38. Brändén, C.-I., The crystal structure of $HgCl_2 \cdot C_4H_8S$ 495–500
39. Brändén, C.-I., The structural chemistry of some mercury(II)complexes 501–516
40. Aurivillius, K., A neutron diffraction structure determination of Hg_3OCl_4 517–535
41. Aurivillius, K., An X-ray diffraction structure determination of Hg_3OCl_4 537–550
42. Östman, B., Formation of 2,3-dilithiumthiophene 551–560
